

BRASS BENDER

Item No: CB-150D

for bending copper and aluminum sheet

Item No: CB-200A

for bending copper and aluminum sheet

FUNCTION

※ Bent brass cutter or bent Alu cutter with 90 degree will not hurt the brass material.

※ CB-150D can be opened up. when bending long brass sheet "N" shape or "L" shape can pull the lock out, so you can take the whole one freely.

※ There is an indication of 90° degree and 45° degree.

Item No	Bending Force	Max thickness of sheet	Width of sheet	Height	Weight
CB-150D	16T	10mm	150mm	approx 360mm	approx 23kg
CB200A	20T	12mm	200mm	approx 370mm	approx 18kg

Item No: VHB-150

VHB-150 Multi-functionalline production machine

Functions	with three functions, cutting, punching and bending.
Dimension of work table:	600mm(L)×600mm (W) ×770mm(H)
Voltage: single phase	single phase 50Hz, 220V
Rating oil pressure:	700kg/cm ²
Cutting force:	25T
Cutting range:	150mm(Wedth) × 10mm(thickness)
Punching force:	30T
Distance from hole to sheet side:	80mm
Punching range:	Hole DIA. φ 11, φ 14, φ 18, φ 21mm
